

# 목차

- pwd
- ls
- cd
- mkdir
- touch, vi
- open .

# pwd

## 현재 위치/경로 확인

- `pwd`
- `/` : 루트 디렉토리
- `~` : 홈 디렉토리
- 절대 경로: `/` 로 시작
- 상대 경로: `.` 로 시작

```
$ pwd  
/Users/Desktop
```

The terminal output shows the current directory as `/Users/Desktop`. A green horizontal line is drawn under the word `Desktop`, and a green arrow points upwards from the Korean text "현재 내가 있는 위치" (Current location I am in) to the underlined `Desktop`.
